

French Gallery

In Year 3 we have located French cities on a map.

In Year 3 we also learn about French Christmas traditions and make our own Christmas cards, writing the greeting in French.

We also make spinning wheels showcasing our learning of animals and fruits.

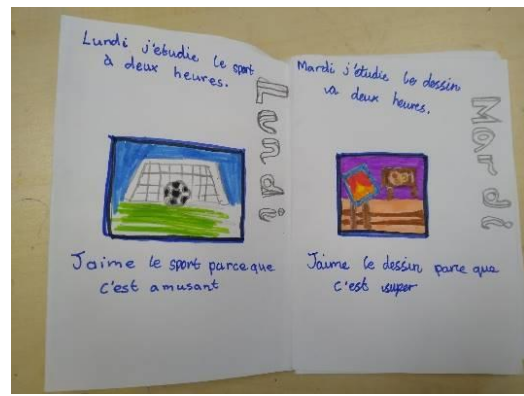

In Year 4 we have described our emotions, using adjectival agreement as well as using the verbs avoir and être.

We also made our own passports in French. They included our name, age, where we live and our favourite colour - and we also described what we like doing!

We also make caterpillar books showcasing our learning about days of the week, clothes and the weather.

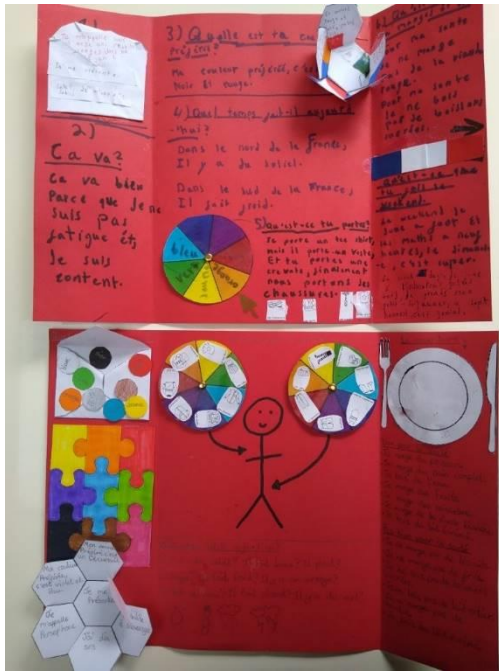

In Year 6 we look at the differences between French and English schools. Did you know that children in French schools don't have to wear a school uniform?

Year 6 study WW2 in history so in French we write a timeline of the events, using our decoding skills to translate a French powerpoint on the subject.

As part of their summer transition project last year 6 made lapbooks showcasing their language learning. They sent them to their new language teachers their secondary schools and enjoyed hearing their encouraging comments.

Some of Year 6 study different languages to French when they go on to their new secondary schools. But they understand the many benefits of learning any new language – at any age! Bonne chance!
