# What happens in Code Club at St Nicholas Primary?

A social story to promote inclusion

November 2025

This is where Code Club happens,
in our school library.

We put our coats and bags here.

We store our water bottles here.

We have a snack and a chat about today's project ideas.

We share our thoughts and questions before getting started.

We work on our own, or with a partner or with a grown-up or a mixture of all three.

We share our learning as we go.

We take time to look at each other's projects at the end, celebrate successes and share problems.

We save our projects and sign out.

We collect our belongings, leave the library tidy and go home.
