

Coolest Projects Team 2026

We filled in an application form over Christmas and then spent the Spring Term at Code Club making our project...

We practised talking about our projects and got feedback from each other.

Saturday 16th May finally arrived and we left school at 5.30am. It was a long drive!

We shared 5 **Hardware** projects...

and 6 **Scratch** projects...

We talked to the judges and other people about our projects.

Some of us were even filmed!

There were some other fun things to do around the show as well.

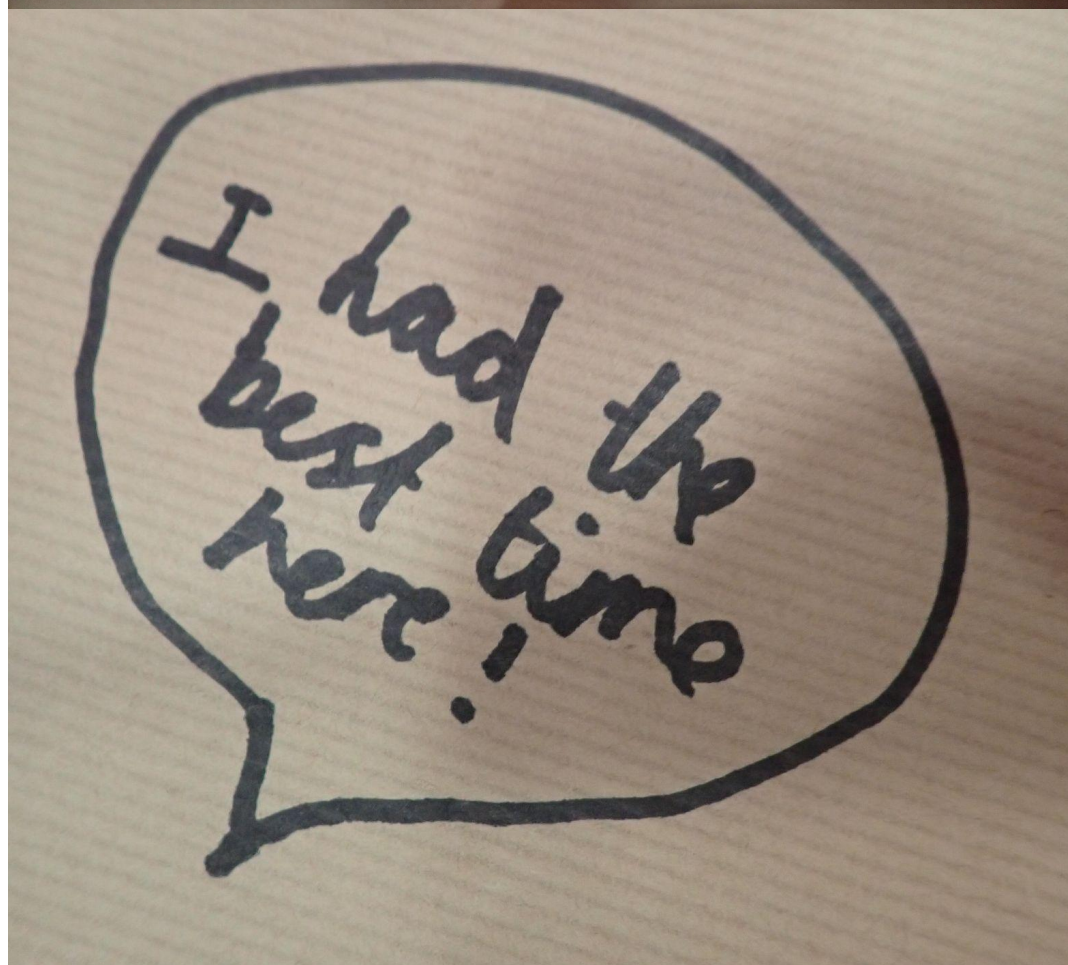

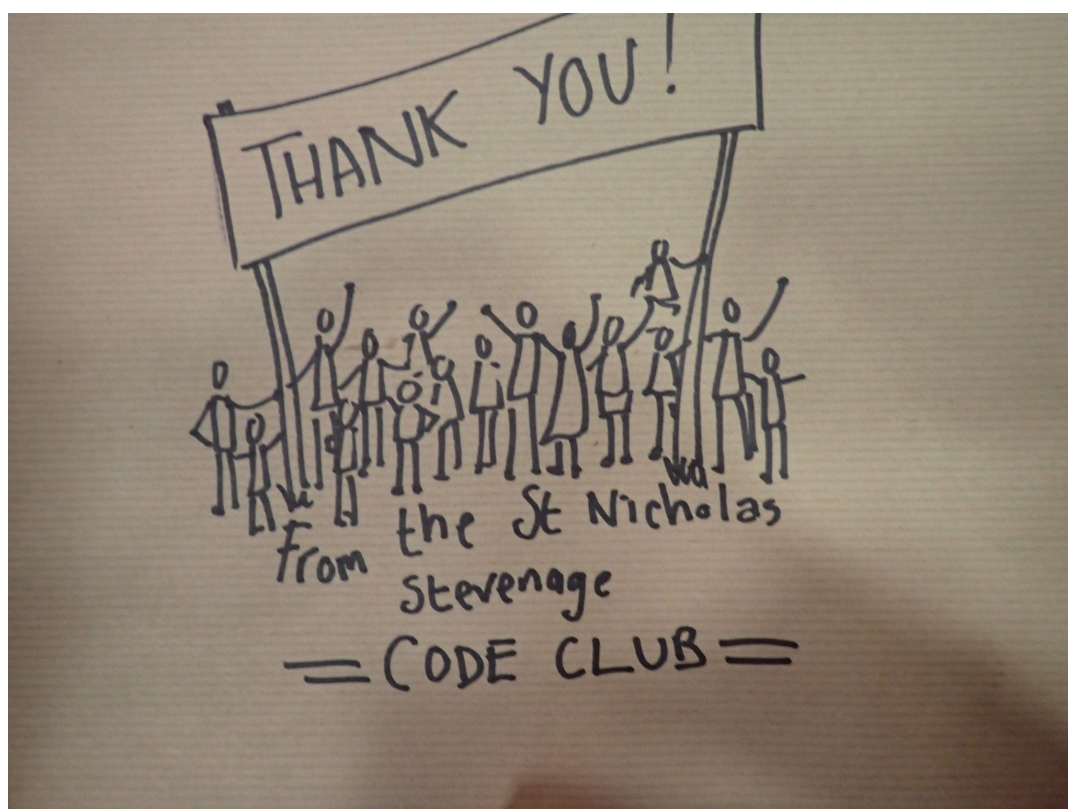

And of course we enjoyed lunch together!

Everyone went on stage at the end to be presented with a goodie bag!

We left some notes on the tables for the organisers of this amazing event!

Huge thanks go to Mrs Prendergast, Rev Karen, Mr Oladapo, Mrs Pranata and Mr Coultart for coming with us and keeping us safe.

We couldn't have done it without you!

*Mrs Coultart
